

Consumer and retail businesses face seasonal demand, intense competition, and complex global supply chains. Panther responds with flexible, cost-effective supply chain services.

## RETAIL SUPPORT.

We provide end-to-end transportation and supply chain services for retail businesses and their suppliers. From basic warehousing and distribution services to strategic, custom retail delivery solutions, Panther offers a comprehensive array of supply chain services to ensure products get to market on time and under budget.

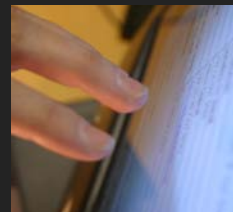

We serve virtually all retail market segments, including:

- Consumer electronics and games
- Footwear and apparel
- Convenience stores and markets
- Packaged food and beverages
- Household and personal care products
- Stationery and other paper products
- Home appliances
- Media and entertainment products
- Furniture
- Home improvement products

### How Panther Helps

When a major toy store chain was set to release one of the most anticipated toys of the holiday season, it learned that display cases were likely to arrive one day late.

Panther dispatched 43 trucks to a point on the east coast at 4:30 p.m. on a Friday to make sure all displays would be delivered on-time for the Saturday morning release.

### Technology

Our technology provides optimized pricing options based upon mode and route options, and shipping requirements.
