

Whether you are an asset-based or a non asset-based 3PL provider, we provide services you need.

SUPPORT FOR 3PLs, FORWARDERS, AND TRANSPORTATION SERVICE PROVIDERS.

We scale and adjust our services based upon market conditions and the dynamic requirements of our transportation industry clients. Our large and diverse fleet, vast network of carriers, and dedicated customer service representatives will complement your services while meeting your financial needs.

Panther Delivers

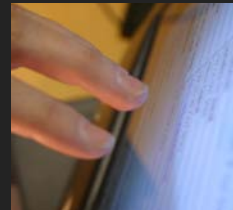

Panther handles all types of freight, including:

- Cold-chain pharmaceuticals
- Government and security cleared shipments
- Automotive and heavy manufacturing parts
- Raw chemicals
- Hazardous materials
- Paper and printed
- Event and display materials
- Retail products
- Electronics

Our entire fleet is equipped with Qualcomm satellite tracking; therefore, you and your customers have real-time visibility into your entire supply-chain.

How Panther Helps

Third-party providers rely on Panther for superior premium logistics solutions. Our dedicated customer support team provides one-stop shopping for all your ground, air, and ocean opportunities anywhere in the world. Our unique capability to provide true pricing by mode and time allows our customers the option to buy-up or buy-down based upon specific service parameters — all while maintaining a high level of customer service, reliability, and agility.

Technology

Our technology provides optimized pricing options based upon mode and route options, and shipping requirements.
